Subject: Corruption in the Middlesex Probate Court System

I have a tip on what I believe is massive corruption in the Middlesex Probate Court System in the Clerk of Courts office. Check out www.save-your-estate.com about a real Probate case. The site is in process – Check the link on the Main Page and the History Page links.

I am attaching a few criminal investigation reports done by Stealth Investigations who was retained to assist in this case for your reference.

Feel free to contact me at this email address for more information and keep watching the web site for updates – it is not nearly done.

I stress that the judge in this case, Judge McSweeney, is the hero of this case and the only person in the legal profession involved in this case has acted admirably.

Sincerely,

www.save-your-estate.com
